

Exhibit A

April 6, 2000

To: Mr. Michael Tramutolo
Account Manager
Siemens Automotive

Subject: REQUEST FOR QUOTATION: ABS and Controlled Suspension
Electronic Control Units

Dear Mr. Tramutolo:

Delphi Global Purchasing is pleased to offer you the opportunity to quote on Request for Quotation # 600175174 – Chassis Control Modules. Through this sourcing process we will be evaluating a select group suppliers based on their ability to strategically partner with Delphi Automotive Systems. We will be requiring detailed information from you in order for us to make an informed and strategic selection.

After review of the technical and commercial proposals for this product, we will select the supplier(s) who can offer world class levels of quality, service, price, and technology. We wish you the best in this endeavor, and invite you to call on us if you are in need of assistance during the process.

Please review the quote package carefully. There are many requirements for your response that are needed to ensure Delphi Automotive Systems will meet all of the necessary goals for this sourcing decision. You are required to treat all of the information in this package as *Delphi Automotive Systems Confidential*. Your quotation is due no later than **08:00 AM EDT on Wednesday, May 17, 2000**.

Again, we wish you the best in this activity.

Sincerely,

Jane S. Thompson
Sr. Buyer
Delphi Global Purchasing

Brigette Colter
Sr. Buyer
Delphi Global Purchasing

Controlled Suspension Specifications

- 22197147.PDF
- 22197148 (App. A).PDF
- 22197195 (App. B).PDF
- 22197163 (App. C).PDF
- 22197159 (App. D).PDF
- 22197164 (App. E).PDF

About the programs you are quoting:

This package includes ABS and Controlled Suspension Electronic Control Units requirements for North American programs to be rolled out beginning in the 2004 and 2005 model years. It includes programs awarded to Delphi Energy & Chassis Systems, as well as programs that Delphi Energy & Chassis Systems has a high potential to be awarded. The following volume scenarios and specifications are sensitive Delphi Energy & Chassis Systems information. Please treat this information accordingly.

Quote the ABS and Controlled Suspension programs and volumes shown in Appendix 7. The volumes are subject to some variation as these are projections. Multiple volume scenarios are being quoted so that Delphi Energy & Chassis Systems can make long-term commitments to supplier(s) for the future programs not yet awarded to Delphi Energy & Chassis Systems. These volumes are projected annual Lean Capacity Rates. Awarded suppliers' production rates must be able to support a 15% increase in volume without requiring additional tooling.

- Scenario I – Mainstream opportunity involving customer programs Delphi has won or has the high potential to win. Quote all programs, volumes, etc., in Scenario 1 assuming 100% of each program/configuration will be awarded to you.
- Scenario II – A subset of the mainstream opportunity in Scenario I to cost out the programs in case Delphi Energy & Chassis Systems is unsuccessful on some programs. Quote all programs, volumes, etc., in Scenario II assuming 100% of the volume for each program/configuration will be awarded to you.
- Scenario III – Contains all of Scenario 1 plus other potential programs that Delphi Energy & Chassis Systems has/is bidding on. Quote all of the ABS programs assuming award of 100% of the volume, but price each Controlled Suspension program as if you would be awarded them separately.

Each of the three scenarios should be quoted independently of the other scenarios (they are not cumulative).

Preliminary Program Timing for a 2004 Model Year Delphi Energy & Chassis Systems Program:

Material Required Dates (Parts delivered to Delphi Energy & Chassis Systems in specific quantities, can range from 1 to 500 pieces for each date given from Alpha to Pilot.)

Alpha Build	February 1, 2001	(Pre-prototype)
Beta Build	July 15, 2001	(Pre-prototype)
Prototype - <u>C samples</u>	March 1, 2002	
PPAP	June 3, 2002	(Final sample submission)
Pilot	November 7, 2002	
Start of Production	June 15, 2003	

These program dates above are representative of a generic timetable that should be used for planning purposes only.

Three Dimensional Math Data Transfer Capability:

Delphi Energy & Chassis Systems prefers to provide all math data transmissions to suppliers in a native UG format. If non-strategic software is used, the supplier assumes all costs associated with additional translations. If the supplier is to return math data, it must be data banked in the native UG format.

Supplier will be responsible to meet inspection and verification of parts to the Delphi Energy & Chassis Systems math data master.

If portable math data media (magnetic tapes, cassettes, or disks) are used, they belong exclusively to Delphi Energy & Chassis Systems and must be returned within 30 days. Delphi Energy & Chassis Systems portable math data is not to be used for supplier libraries.

Quote responses must specify whether math data communication is through EDS*ELIT Network or other means.

Development Costs:

The Supplier bears the cost of development. Cost recovery can occur only from within the production piece price, production tooling and/or the Development/Alpha/Beta/ Prototype piece price and tooling.

Pricing and Currency:

Quote economics based on the production model years shown in the program volume table. Economic adjustments will not be allowed. All prices should be quoted, per unit, in the currency of the country of manufacture.

*Mer -> US \$
For -> FF*

Warranty

Warranty/Recall: (Sections 1 and 2 below) Delphi Energy and Chassis Systems' goal is neither to profit nor to incur financial penalty or expense due to non-conforming products received from outside suppliers. Accordingly, unless otherwise agreed by Delphi Energy and Chassis Systems in writing at the time of contracting, all Supplier supplied products will carry the warranty set forth in sections referenced above, provided that the warranty of fitness and sufficiency for a particular purpose of use shall apply only where Supplier has system responsibility. Moreover, unless otherwise agreed by Delphi Energy and Chassis Systems in writing at the time of contracting, the length of duration of the warranty period shall be four (4) years, but in no event longer than the warranty period extended by Delphi Energy and Chassis Systems to its customers. Supplier's responsibility under such warranty would be limited to reimburse Delphi Energy and Chassis Systems for all direct, out-of-pocket expenses incurred (e.g., Supplier's service parts price to Delphi Energy and Chassis Systems, labor according to applicable Delphi Energy and Chassis Systems' standards, shipping, dealer mark-up of the service parts price, customer mailings, notifications, etc.). Representative samples would be provided if requested.

In case of recall, reimbursement by Supplier of Delphi Energy and Chassis Systems direct out-of-pocket expenses (see above) shall be negotiated based on the degree of Supplier's responsibility for the recall. Prior to the recall for which Delphi Energy and Chassis Systems expects to be reimbursed by Supplier, the parties shall consult each other as to the need thereof and the actions to be taken. A representative sampling of the goods replaced during the recall shall be returned to Supplier if so requested by Supplier. It is the understanding of the parties that there shall be no warranties or remedies for breach of warranty of recall beyond the ones set forth above or in separate warranty agreements, as the case may be.

1. **Warranty:** Supplier expressly warrants that all goods or services covered by this order will conform to the specifications, drawings, samples, or descriptions furnished to or by Buyer, and will be merchantable, of good material and workmanship and free from defect. In addition, Supplier acknowledges that Supplier knows of Buyer's intended use and expressly warrants that all goods covered by this order which have been selected, designed, manufactured, or assembled by Supplier based upon Buyer's stated use, will be fit and sufficient for the particular purposes intended by Buyer.
- 2.
3. **Remedies:** The rights and remedies reserved to Buyer in this order shall be cumulative, and additional to all other or further remedies provided in law or equity.

SIEMENS VDO

Quality Assurance Requirements:

System Requirements: Supplier must have an effective quality system to meet the QS-9000 requirements. Any deficiencies identified must be addressed by the supplier in the form of a documented action plan. (*Third party registration is required*)

Performance Requirements: Our expectation is that the supplier Parts Per Million Rejected (PPM) will show continuous improvement with a goal of 25 PPM or less.

$$\text{PPM} = \text{Discrepant Material /Receipts} \times 1,000,000$$

- Supplier has financial responsibility for non-conforming materials and their effects.
- Supplier is required to monitor their own internal PPM performance.
- Supplier must have on-line capability to respond to all problem reports (PRR's). Initial response must be received within 24 hours and final response within 15 days (GP5).
- **Supplier (including sub-suppliers) shall not make any changes in Part Design, Material, or Manufacturing process without prior customer approval. (GM operating policy to the Production Part Approval Process -PPAP).**

Part Requirements: Must meet Production Part Approval Process (PPAP) prior to initial production shipment. This applies to the entire supply chain and includes, but is not limited to:

- Design Failure Mode and Effects Analysis (DFMEA) for Design Responsible Suppliers
- Process Failure Mode and Effects Analysis (PFMEA)
- Documented Process Capability - PPK
- Lab Results (Physical and Appearance)
- Process Flow Diagram
- Process Control Plan
- Checking Aids
- Significant Production Run
- Master Sample Retention
- Gage R&R studies

- Must participate in preproduction meetings for all new parts.
- Must monitor quality performance on an on-going basis and have an acceptable plan to improve quality. (GP-8)

(Ref. AIAG Ref. manual)

- Must follow requirements of and participate in the AIAG Advanced Quality Planning Process (APQP) on new parts, including the team feasibility review.
- Must have all performance and material testing performed by a lab approved by an appropriate accrediting body (AALA, Standards Council of Canada).

Must have an early production containment or prelaunch quality control plan for a minimum of 1200 pieces or a designated quantity/duration specified by your Delphi SQE or Buyer. These are additional controls at startup and acceleration which assure all potential failure modes have been addressed. An additional label and management signoff is mandatory. (GP-12)

- Perform/participate in a run at rate process (GP9) for all new parts and major changes as directed by the customer.
- Compliance to GM1000M-"Restricted and Reportable Chemicals".

Packaging and Labeling Requirements: All packages must meet GM packing specifications GM 1738. This requirement assures that product will arrive at point of use undamaged. All material must be properly identified with appropriate label information (Divisional; GM1724). Supplier's labeling system must assure no mis-identification will occur. Bar-code labeling is a requirement.

ABS & Suspension ECU Cost Matrices:

You received a file via e-mail with these matrices. Please use these electronic files to type in your responses and provide an electronic and hard copy with your quotation response. Please also return the completed file via e-mail with your quotation. It is meant to help you format your response and to help us in the analysis of the quotation by receiving consistently formatted responses. Please do not re-format these files.

Provide a separate content summary matrix for both Paris, France and Juarez, Mexico.

Tooling Costs:

Tooling cost will be paid by Delphi Energy and Chassis Systems. Tooling costs that are paid by Delphi Energy and Chassis Systems can be invoiced against an issued purchase order only after production sample approval has been documented by an approved PPAP sample submission report signed by Delphi Energy and Chassis Systems. Delphi Energy and Chassis Systems assumes ownership of such tooling. Maintenance and replacement of tools is the responsibility and at the expense of the supplier. Models for the production of the tools have to be included in the tooling cost, but shown separately.

Please complete the Tooling Cost Breakdown sheets as provided in Appendix 2.

Organization and Contact Information:

Please provide chart of your organizational structure and fill out the Commercial and Technical Contact Sheet found in Appendix 3. This data should include phone numbers and titles of your sales personnel and engineering staff whom we may contact during the quotation process.

Packaging Forms:

Please complete a packaging form for each ECU Configuration. See Appendix 4.

Standard Terms and Conditions:

Please refer to Appendix 5 for Delphi Standard Terms and Conditions and Appendix 6 for a copy of the Delphi Energy and Chassis Systems Long Term Contract.

A proposal with annual price reductions (long term contract) is expected. It is Delphi Energy and Chassis Systems' strong desire to establish a long-term relationship in accordance with the terms of this long-term contract.

Specifications and Scope of Supplier Involvement

The attached Specifications provide minimum requirements as required by Delphi Energy and Chassis Systems. We welcome non-confidential suggestions regarding changes in the specifications and/or modifications in design or production methods which will aid in reducing costs or mass without impairing quality. Any such recommended changes should be highlighted in your quote resource. Additionally, the specifications are not absolute and can be tailored to meet Supplier capabilities.

For international suppliers, utilize applicable local standards if any specifications or standards are not included in this quotation package. Specify all assumed specifications/standards that were used. Also, SAE standards are comparable to ISO standards. Please specify which ISO standards were assumed in quoting.

SIEMENS VDO

Timing:

Please complete and submit a detailed Timing Chart. All timing deadlines for critical steps (e.g., receipt of tool order, contract, final drawings, gauges, etc.) must be clearly indicated.

Patents:

All existing patent rights concerning your offer must be clearly identified to Delphi Energy and Chassis Systems with your quotation.

Quote Return Preparation:

Please adhere to the following guidelines and format when preparing your quote:

- **Quote responses are not to be mechanically bound.** You may place the quotation response in a loose leaf, 3-ring binder or return with a binder clip. (We will be making copies for our quotation team members.)
- Respond only in black and white, not color.
- Do not use any shading in the text of your response.
- Send a copy of the quotation, including cost summaries, via e-mail.

Structure your response as follows:

- 1) **Introduction**
- 2) **ABS and Controlled Suspension Cost Summaries**

Please provide completed matrices in this section. (Paper copy and e-mail)

- a) Scenario I
- b) Scenario II
- c) Scenario III

- 3) **Requested Forms and Attachments**
 - a) Tooling Breakdown Forms
 - b) Organization and Contact Information Sheets
 - c) NAO 0028 Packaging Forms
 - d) Copy of QS9000 certificate of plan to achieve QS9000.

- 4) **Technical Data Related to Your Proposal**

Please provide a full system description and associated technical data in this section. This should be a detailed summary describing how your system meets the specifications provided. Divide this section as follows:

- a) DBC 7.4 8-Valve
- b) DBC7.4 12-Valve
- c) Controlled Suspension
 - Appendix A
 - Appendix B
 - Appendix C

- Appendix D
- Appendix E

Also include the detailed Timing Chart and Resource Personnel List.

5) Supporting Documentation

Place anything else you want to include in your response in this section.

Quote return information:

All quotations must be received by Delphi Energy and Chassis Systems Global Purchasing in Dayton, Ohio, USA no later than 8 a.m. Eastern Standard Time (U.S.) on May 17, 2000.

Please deliver by hand (or use an overnight delivery service such as Federal Express) to the following locations:

LONG TERM CONTRACT

1. Purchase of Product

Siemens ("Seller") agrees to sell, and Delphi Automotive Systems LLC acting through its E/C Division ("Buyer") agrees to purchase, approximately 100 percent (100%) of Buyer's production and service requirements for the following products (each referred to as a "Product" and collectively referred to as the "Products"):

Part Number	Description	Per Unit Price (without coils)	Annual Daily Tool Capacity
TBD	ABS (8-valve)	U.S.\$27.00*	1,217,660 total
TBD	ABS/VES (8-valve)	U.S.\$29.00*	Included above
TBD	ABS (12-valve)	U.S.\$31.00*	Included above
TBD	ABS/VES (12-valve)	U.S.\$33.00*	Included above
TBD	Bi-State RTD (Appendix A)	U.S.\$36.00	111,625
TBD	MagneRide (Appendix B)	U.S.\$38.00	43,000

* Actual contract price will be increased by U.S.\$5.05 for 8-valve part numbers and U.S.\$7.45 for 12-valve part numbers for the addition of coils

2. Term

With respect to each Product, the term of this Contract is from 8/1/03 through 7/31/08.

3. Prices

The per unit price of each Product for 2004-2008 model years is FCA TTOP Guadalajara, Mexico. Pricing (without coils) for each subsequent model year date is subject to the following minimum annual percentage reductions from the prior model year date's pricing:

8/1/04	four percent (4%)
8/1/05	four percent (4%)
8/1/06	four percent (4%)
8/1/07	four percent (4%)

DELPHI

Automotive Systems
Pricing changes due to coil price changes will be passed through on a one-for-one basis.

Buyer and Seller will use their best efforts to implement cost savings and productivity improvements in order to reduce Seller's costs of supplying each Product. Buyer and Seller agree that the pricing of each Product will be reduced (in addition to any scheduled price reductions) by an amount equal to fifty percent (50%) of any net cost savings achieved by Seller with respect to such

Product (i.e., savings after recovery by Seller of a pro rata portion, based on the remaining term of this Contract, of the reasonable and documented costs to achieve such cost savings), provided, however, that the pricing of each Product will be reduced (in addition to any scheduled price reductions) by an amount equal to one hundred percent (100%) of any savings resulting from reduction on the content of the such Product.

No price increases (including any decrease of the scheduled price reductions) will be made on account of (i) Seller's failure to achieve any expected cost savings or productivity improvements or (ii) any increases in Seller's labor, materials, overhead and other costs. In the event that Buyer agrees to any price increases (or a decrease of any scheduled price reductions) with respect to any Product, then, notwithstanding anything to the contrary set forth in this Contract, the pricing of each Products will be reduced (in addition to any scheduled price reductions) by an amount equal to one hundred percent (100%) of any subsequent net cost savings achieved by Seller with respect to such Product until aggregate price reductions on account of Seller's cost savings equal any price increases previously agreed to by Buyer.

4. Right to Purchase from Others

During the entire term of this Contract, Seller will assure that each Product remains competitive in terms of technology, design, service and quality with any similar product available to Buyer. Following 2004 model year Seller will also assure that each Product remains competitive in terms of price with any similar product available to Buyer. If, in the reasonable opinion of Buyer, a Product does not remain competitive, Buyer, to the extent it is free to do so, will advise Seller in writing of the area(s) in which a similar product is more competitive. If, within ninety (90) days, Seller does not agree to immediately sell any Product with comparable technology, design, quality, or, if applicable, price, Buyer may elect to purchase any similar products available to Buyer without any liability to Seller under this Contract.

SIEMENS VDO

SIEMENS VDO

DELPHI

5. Automotive Systems Purchase Orders

All Products will be ordered by Buyer, and delivered by Seller, in accordance with written purchase orders (including related delivery releases and shipping instructions) issued by Buyer from time to time during the term of this Contract. Buyer's General Terms and Conditions, a copy of which is

attached, are hereby incorporated into this Contract by reference, provided, however, that Buyer's right to "terminate for convenience" under the General Terms and Conditions will be inapplicable to this Contract until the end 2004 model year. Any amendment to, or revision of, such General Terms and Conditions shall also become a part of this Contract, provided that (i) Buyer provides Seller with a copy of such revised Terms and Conditions and (ii) Seller does not object to such revised Terms and Conditions in writing within thirty (30) days after receipt. The Terms and Conditions (together with any revision made a part of this Contract) shall be construed, to the extent possible, as consistent with the terms and conditions set forth in this Contract and as cumulative, provided, however, that if such construction is unreasonable, the terms and conditions set forth in this Contract shall control.

6. Field Warranty

All warranty provisions set forth in Buyer's General Terms and Conditions apply to this contract. In addition, Seller agrees to participate in the following program with respect to common cause field warranty.

6.1 The cumulative Incidents Per Thousand Vehicles (IPTV) goals below are set individually for ABS and for Controlled Suspension for the respective periods after the date of manufacture. Goals are as follows:

Period	ABS	Controlled Suspension
360 days	0.1	0.1
720 days	0.2	0.2
1,008 days	0.3	0.3

SIEMENS VDO

Any changes to the IPTV goals stated above will not be binding unless agreed to in writing by Buyer and Seller.

DELPHI

6.2 Seller is responsible to mark each unit with a "manufactured on" date code.

6.3 Buyer will not hold Seller responsible for field warranty claims below or at the applicable IPTV goals. Any field warranty claims in excess of the applicable IPTV goals will be the sole responsibility of Seller, and Seller will be responsible for all costs arising out of such field warranty claims, including, without limitation, costs of labor, replacement parts, shipping, dealer markup, service part markup, administration and service notices/bulletins.

6.4 IPTV levels may be established by the vehicle level customer use any reasonable methodology, including, without limitation, analysis of returns in certain regions or markets which will be considered population representative in order to project actual field warranty IPTV levels.

6.5 Buyer will allow Seller to analyze 100% of all returns that are made available to Buyer by the vehicle manufacturer. Buyer will either share received returns or forward returns directly from the vehicle manufacturer to Seller.

EXECUTED by Buyer and Seller as of 6/16/00.

Automotive Systems

DELPHI AUTOMOTIVE SYSTEMS

GENERAL TERMS AND CONDITIONS

Delphi Automotive Systems seeks to exceed its customers' expectations. Delphi's suppliers are integral to achieving this objective, and Delphi hopes that its suppliers will recognize Delphi as their preferred customer. Delphi will establish high performance expectations for itself and its suppliers, measure performance and reward superior performance.

1. ACCEPTANCE

Seller acknowledges and agrees that these General Terms and Conditions are incorporated in, and a part of, this contract and each purchase order, release, requisition, work order, shipping instruction, specification and other document, whether expressed in written form or by electronic data interchange, relating to the goods and/or services to be provided by Seller pursuant to this contract (such documents are collectively referred to as this "Contract"). Seller acknowledges and agrees that it has read and understands these General Terms and Conditions. If Seller accepts this Contract in writing or commences any of the work or services which are the subject of this Contract, Seller will be deemed to have accepted this Contract and these General Terms and Conditions in their entirety without modification. Any additions to, changes in, modifications of, or revisions of this Contract (including these General Terms and Conditions) which Seller proposes will be deemed to be rejected by Buyer except to the extent that Buyer expressly agrees to accept any such proposals in writing.

2. SHIPPING AND BILLING

2.1 Shipping. Seller will (a) properly pack, mark and, ship goods as instructed by Buyer or any carriers and in accordance with any applicable laws or regulations, (b) route shipments as Buyer instructs, (c) not charge for costs relating to handling, packaging, storage or transportation (including duties, taxes, fees, etc.) unless otherwise expressly stated in this Contract, (d) provide packing slips with each shipment that identify Buyer's contract and/or release number and the date of the shipment, and (e) promptly forward the original bill of lading or other shipping receipt with respect to each shipment as Buyer instructs. Seller will include on bills of lading or other shipping receipts the correct classification identification of the goods shipped as Buyer or the carrier requires. The marks on each package and identification of the goods on packing slips, bills of lading and invoices must enable Buyer to easily identify the goods.

2.2 Billing. Seller will (a) accept payment based upon Buyer's Evaluated Receipt Record/Self-Billed Invoice unless Buyer requests that Seller issue and deliver an invoice and (b) accept payment by electronic funds transfer. If the payment due date is not otherwise specified in this Contract, the payment due date will be the due date established by the Multilateral Netting System (MNS-2) used by Buyer, which provides, on average, that payment will be due on the second day of the second month following the date Buyer

receives the goods or services. Buyer may withhold payment for any goods or services until Buyer receives evidence, in such form and detail as Buyer requires, of the absence of any liens, encumbrances and claims on such goods or services.

2.3 Delivery Schedules. Deliveries will be made in the quantities, on the dates, and at the times specified by Buyer in this Contract or any subsequent releases or instructions Buyer issues under this Contract. Time is of the essence with respect to all delivery schedules Buyer establishes. Buyer will not be required to pay for any goods that exceed the quantities specified in Buyer's delivery schedules or to accept goods that are delivered in advance of the delivery date specified in Buyer's delivery schedules. Seller bears the risk of loss of all goods delivered in advance of the delivery date specified in Buyer's delivery schedules. If Buyer determines that the requirements of Buyer's customers or market, economic or other conditions require changes in delivery schedules, Buyer may change the rate of scheduled shipments or direct temporary suspension of scheduled shipments without entitling Seller to a price adjustment or other modification of this Contract.

2.4 Premium Shipments. If Seller fails to have goods ready for shipment in time to meet Buyer's delivery schedules using the method of transportation originally specified by Buyer and, as a result, Buyer requires Seller to ship the goods using a premium (more expeditious) method of transportation, Seller will ship the goods as expeditiously as possible. Seller will pay, and be responsible for, the entire cost of such premium shipment, unless Buyer's actions caused Seller to fail to meet Buyer's delivery schedules, in which case Buyer will pay any costs for premium shipment.

3. SPECIFICATION, DESIGN AND SCOPE CHANGES

Buyer may at any time require Seller to implement changes to the specifications or design of the goods or to the scope of any services or work covered by this Contract, including work related to inspection, testing or quality control. While Buyer will endeavor to discuss any such changes with Seller as early as practical, Seller will promptly implement such changes. Buyer will equitably determine any adjustment in price or delivery schedules resulting from such changes, including Buyer's payment of reasonable costs of modifications to Seller's Equipment and Facilities (as defined in Article 16) necessary to implement such changes. In order to assist in the determination of any equitable adjustment in price or delivery schedules, Seller will, as requested, provide information to Buyer, including documentation of changes in Seller's cost of production and the time to implement such changes. In the event of any disagreement arising out of such changes, Buyer and Seller will work to resolve the disagreement in good faith, provided, however, that Seller will continue performing under this Contract, including prompt implementation of changes required by Buyer, while Buyer and Seller resolve any disagreement arising out of such changes.

4. QUALITY AND INSPECTION

Seller will participate in Buyer's supplier quality and development program(s) and comply with all quality requirements and procedures Buyer specifies from time to time. Seller will permit Buyer and its representatives and consultants to (i) inspect Seller's books and records in order to monitor Seller's compliance with this Contract and Seller's financial condition and (ii) enter Seller's facilities at reasonable times to inspect such facilities and any goods, materials and property that relate to this Contract. No such inspection by Buyer will constitute acceptance by Buyer of any work-in-process or finished goods.

5. NON-CONFORMING GOODS

Buyer is not required to perform incoming inspections of any goods, and Seller waives any right to require Buyer to conduct any such inspections. Seller will not substitute any goods for the goods covered by this Contract unless Buyer consents in writing. If Buyer rejects any goods as non-conforming, Buyer may, at its option, (a) reduce the quantities of goods ordered under this Contract by the quantity of non-conforming goods, (b) require Seller to replace the non-conforming goods, and/or (c) exercise any other applicable rights or remedies. If Seller fails to inform Buyer in writing of the manner in which Seller desires that Buyer dispose of non-conforming goods within forty-eight (48) hours of notice of Buyer's rejection of non-conforming goods (or such shorter period as is reasonable under the circumstances), Buyer will be entitled to dispose of the non-conforming goods without liability to Seller, provided, however, that in any event Buyer may elect to arrange for the shipment of any non-conforming goods back to Seller at Seller's expense. Seller will bear all risk of loss with respect to all non-conforming goods and will promptly pay or reimburse all costs incurred by Buyer to return, store or dispose any non-conforming goods. Buyer's payment for any non-conforming goods will not constitute acceptance by Buyer, limit or impair Buyer's right to exercise any rights or remedies, or relieve Seller of responsibility for the non-conforming goods.

6. FORCE MAJEURE

If Seller is unable to produce, sell or deliver any goods or services covered by this Contract, or Buyer is unable to accept delivery, buy or use any goods or services covered by this Contract, as a result of an event or occurrence beyond the reasonable control of the affected party and without such party's fault or negligence, then any delay or failure to perform under this Contract that results from such event or occurrence will be excused for so long as such event or occurrence continues; provided, however, that the affected party gives written notice of such delay (including the anticipated duration of the delay) to the other party as soon as possible after the event or occurrence (but in no event more than three (3) days thereafter). Such events and occurrences may include, by way of example and not limitation, natural disasters, fires, floods, windstorms, severe weather, explosions, riots, wars, sabotage, labor problems (including lockouts, strikes and slowdowns), equipment breakdowns and power failures. During any delay or failure to perform by Seller, Buyer may (i) purchase substitute goods from other available sources, in which case the quantities under this Contract will be reduced by the quantities of such substitute goods and Seller will reimburse Buyer for any additional costs to Buyer of

obtaining the substitute goods compared to the prices set forth in this Contract and/or (ii) have Seller provide substitute goods from other available sources in quantities and at times Buyer requests and at the prices set forth in this Contract. If Seller fails to provide adequate assurances that any delay will not exceed thirty (30) days or if any delay lasts more than thirty (30) days, Buyer may terminate this Contract without liability. Before any of Seller's labor contracts expire and as soon as Seller anticipates or learns of any impending strike, labor dispute, work stoppage or other disruption at Seller's facilities that might affect the delivery of goods to Buyer, Seller will produce (and locate in an area that will not be affected by any such disruption) a finished inventory of goods in quantities sufficient to ensure the supply of goods to Buyer for at least thirty (30) days after such disruption commences.

7. WARRANTY

7.1 General. Seller warrants and guarantees to Buyer, its successors, assigns and customers that the goods and services covered by this Contract will (a) conform to all applicable specifications, drawings, samples, descriptions, brochures and manuals furnished by Seller or Buyer, (b) will be merchantable, (c) of good material and workmanship, (d) free from defect, and (e) are fit and sufficient for the particular purposes intended by Buyer and any customer of Buyer. If requested by Buyer, Seller will enter into a separate agreement for the administration or processing of warranty chargebacks for nonconforming goods.

7.2 Date and Time Processing. Seller warrants and guarantees to Buyer and its customers that any products (including computer hardware, software, firmware, machinery and equipment) covered by this Contract must at all times accurately process, handle, calculate, compare and sequence date and time data from, into, within and between the 20th and 21st centuries, including leap year calculations.

7.3 Warranty Period. The period for each of the foregoing warranties will be that provided by applicable law, except that if Buyer ever provides a longer warranty to its customers, such longer warranty period will apply to the goods covered by this Contract.

8. INGREDIENTS AND HAZARDOUS MATERIALS

If Buyer requests, Seller will promptly furnish to Buyer, in such form and detail as Buyer directs: (a) a list of all ingredients in the goods, (b) the amount of all ingredients, and (c) information concerning any changes in or additions to the ingredients. Prior to, and together with, the shipment of the goods, Seller will furnish to Buyer and all carriers sufficient written warning and notice (including appropriate labels on the goods, containers and packing) of any hazardous material that is an ingredient or a part of any of the goods, together with all special handling instructions, safety measures and precautions as may be necessary to comply with applicable law, to inform Buyer and all carriers of any applicable legal requirements and to best allow Buyer and all carriers to prevent bodily injury or property damage in the handling, transportation, processing, use or disposal of the goods, containers and packing.

9. INSOLVENCY OF SELLER

Buyer may immediately terminate this Contract without liability to Seller in any of the following or any similar events: (a) insolvency or financial difficulties of Seller, (b) filing of a voluntary petition in bankruptcy by Seller, (c) filing of any involuntary petition in bankruptcy against Seller, (d) appointment of a receiver or trustee for Seller, (e) execution of an assignment for the benefit of creditors by Seller, or (f) any accommodation by Buyer, financial or otherwise, not contemplated by this Contract, that are necessary for Seller to meet its obligations under this Contract. Seller will reimburse Buyer for all costs Buyer incurs in connection with any of the foregoing whether or not this Contract is terminated, including, but not limited to, all attorney or other professional fees.

10. TERMINATION FOR BREACH

Buyer may terminate all or any part of this Contract, without liability to Seller at any time after execution if Seller (a) repudiates, breaches, or threatens to breach any of the terms of this Contract, including Seller's warranties, (b) fails to perform or threatens not to perform services or deliver goods in accordance with this Contract; or (c) fails to assure timely and proper completion of services or delivery of goods.

11. TERMINATION FOR CONVENIENCE

In addition to any other rights of Buyer to terminate this Contract, Buyer may immediately terminate all or any part of this Contract, at any time and for any reason, by notifying Seller in writing. Upon such termination, Buyer may, at its option, purchase from Seller any or all raw materials, work-in-process and finished goods inventory related to the goods under this Contract which are useable and in a merchantable condition. The purchase price for such finished goods, raw materials and work-in-process, and Seller's sole and exclusive recovery from Buyer (without regard to the legal theory which is the basis for any claim by Seller) on account of such

termination, will be (a) the contract price for all goods or services that have been completed in accordance with this Contract as of termination date and delivered and accepted by Buyer and not previously paid for, plus (b) the actual costs of work-in-process and raw materials incurred by Seller in furnishing the goods or services under this Contract to the extent such costs are reasonable in amount and are properly allocable or apportionable under generally accepted accounting principles to the terminated portion of this Contract less (c) the reasonable value or cost (whichever is higher) of any goods or materials used or sold by Seller with Buyer's written consent. In no event will Buyer be required to pay for finished goods, work-in-process or raw materials which Seller fabricates or procures in amounts that exceed those Buyer authorizes in delivery releases nor will Buyer be required to pay for any goods or materials that are in Seller's standard stock or that are readily marketable. Payments made under this Article will not exceed the aggregate price for finished goods that would be produced by Seller under delivery or release schedules outstanding at the date of termination. Within sixty (60) days after the effective date of termination, Seller will submit a comprehensive termination claim to Buyer, with sufficient supporting data to permit an audit by Buyer, and will thereafter promptly furnish any supplemental and supporting information Buyer requests.

12. TECHNICAL INFORMATION

12.1 Exchange of Information. Buyer and Seller will cooperate to create, maintain, update, and share technical information about the goods, products, machinery, materials, formulations and their manufacture, use, application and control in compliance with Buyer's drafting and math data standards. Such technical information will not be subject to any use or disclosure restrictions. Accordingly, Seller agrees not to assert any claims against Buyer, its customers or their respective suppliers with respect to any technical information that Seller discloses in connection with this Contract.

12.2 Waiver of Claims. Seller agrees not to assert any claim (other than a claim for patent infringement) against Buyer, Buyer's customers or their respective suppliers with respect to any technical information that Seller shall have disclosed or may hereafter disclose in connection with the goods or services covered by this Contract.

12.3 Repair and Rebuild. Seller authorizes Buyer, its affiliates, agents and subcontractors, and Buyer's customers and their subcontractors to repair, reconstruct or rebuild the goods and products delivered under this Contract without payment of any royalty or other compensation to Seller.

12.4 Computer Programs and Written Works. All works of authorship, including without limitation, software, computer programs, and databases (including object code, micro code, source code and data structures), and all enhancements, modifications and updates thereof and all other written work products or materials, which are created in the course of performing this Contract (separately or as part of any goods and components) are "works made for hire" and the sole property of Buyer. To the extent that such works of authorship do not qualify under applicable law as works made for hire, Seller agrees to

assign and assigns to Buyer all right, title and interest in any intellectual property rights in such works of authorship.

13. INDEMNIFICATION

13.1 Infringement. Seller will defend, hold harmless and indemnify Buyer and its customers, and their respective successors and assigns, against any claims of infringement (including patent, trademark, copyright, moral, industrial design or other proprietary rights, or misuse or misappropriation of trade secret) and resulting damages and expenses (including, without limitation, attorney and other professional fees and disbursements) relating to the goods or services covered by this Contract, including any claims in circumstances where Seller has provided only part of the goods or services. Seller waives any claim against Buyer that any such infringement arose out of compliance with Buyer's specifications.

13.2 Activities on Buyer's Premises. Seller will defend, hold harmless, and indemnify Buyer from and against any liability, claims, demands, damages, costs or expenses (including, without limitation, reasonable attorney and other professional fees and disbursements) arising from or in connection with the performance of any service or work by Seller or its employees, agents, representatives and subcontractors on Buyer's or Buyer's customer's premises or the use of the property of Buyer or any customer of Buyer, except to the extent such liability arises out of the negligence or willful misconduct of Buyer or Buyer's customer.

13.3 Product Liability. Seller will defend, hold harmless, and indemnify Buyer from and against any liability and expenses (including, without limitation, attorney and other professional fees and disbursements) arising from or in connection with any third party claims or demands to recover for personal injury or death, property damage or economic loss caused by any of the goods or services supplied by Seller (regardless of whether such claim or demand arises under tort, negligence, contract, warranty, strict liability or other legal theories), except to the extent such injury, damage or loss results from Buyer's specifications as to design or materials or from alteration or improper repair, maintenance or installation by any party other than Seller.

14. COMPLIANCE WITH LAWS

Seller, and any goods or services supplied by Seller, will comply with all applicable laws, rules, regulations, orders, conventions, ordinances and standards of the country(ies) of origin and destination or that relate to the manufacture, labeling, transportation, importation, exportation, licensing, approval or certification of the goods or services, including, but not limited to, those relating to environmental matters, wages, hours and conditions of employment, subcontractor selection, discrimination, occupational health/safety and motor vehicle safety. Neither Seller nor any of its subcontractors will utilize slave, prisoner or any other form of forced or involuntary labor in the supply of goods or services under this Contract. Upon Buyer's request, Seller will certify in writing its compliance with the foregoing. Seller will defend, hold harmless and

indemnify Buyer from and against any liability, claims, demands, damages or expenses (including reasonable attorney or other professional fees and disbursements) arising from or relating to Seller's noncompliance with this Article.

15. INSURANCE

Seller will maintain insurance coverage as required by applicable law or as reasonably requested by Buyer with carriers reasonably acceptable to Buyer. With respect to any such insurance coverage, Seller will furnish to Buyer either a certificate evidencing satisfaction of the above-mentioned insurance requirements under this Contract or certified copies of all insurance policies within ten (10) days after Buyer requests. The certificate must provide that Buyer will receive thirty (30) days prior written notice from the insurer of any termination or reduction in the amount or scope of coverage. The furnishing of certificates of insurance and purchase of insurance will not limit or release Seller from Seller's obligations or liabilities under this Contract.

16. SELLER'S EQUIPMENT

Seller, at its expense, will furnish, keep in good condition, and replace when necessary all of its machinery and equipment, including related tooling, jigs, dies, gauges, fixtures, molds, patterns, fixtures and other accessories, required for the production of the products covered by this Contract ("Seller's Equipment"). Seller will insure Seller's Equipment with fire and extended coverage insurance for its full replacement value. Seller grants Buyer an irrevocable option to take possession of, and title to, all or part of Seller's Equipment that is specially designed or outfitted for the production of the goods covered by this Contract upon payment to Seller of the net book value of such Seller's Equipment less any amounts that Buyer has previously paid to Seller for the cost of such Seller's Equipment. This option will not apply to the extent that Seller's Equipment is used to produce goods that are the standard stock of Seller or if a substantial quantity of like goods are being sold by Seller to others. Buyer's right to exercise this option is not conditioned on Seller's breach or Buyer's termination of this Contract or upon payment of any other amounts due under this Contract.

17. BUYER'S PROPERTY

17.1 Bailment of Property. All supplies, materials, tooling, jigs, dies, gauges, fixtures, molds, patterns, equipment and other items Buyer furnishes, either directly or indirectly, to Seller, or for which Buyer gives consideration to Seller in whole or in part ("Buyer's Property"), will be and remain the property of Buyer and be held by Seller on a bailment basis. To the extent that this Contract provides that Buyer will reimburse Seller for any specific items of Buyer's Property (such as tooling), Seller will purchase and pay for such Buyer's Property as agent of Buyer. To the extent that this Contract provides that Seller will obtain any specific items of Buyer's Property (such as tooling) without separate or additional payment or reimbursement by Seller, Seller acknowledges and agrees that Buyer's issuance of this Contract is good and sufficient consideration for such Buyer's Property and that title to such Buyer's Property shall vest immediately in Buyer and be

held by Seller pursuant to this Article. Seller shall assign to Buyer any contract rights or claims in which Seller has an interest with respect to Buyer's Property. Seller shall also execute (i) any bills of sale or other documents of conveyance Buyer requests to evidence the transfer to Buyer of title to any Buyer's Property, related contract rights and claims and (ii) any financing statements or other documents Buyer requests to evidence Buyer's ownership of Buyer's Property. Title to all replacement parts, additions, improvements and accessories purchased by Seller will vest in Buyer immediately upon attachment to or incorporation into Buyer's Property. Seller will not sell, lend, rent, encumber, pledge, lease, transfer or otherwise dispose of Buyer's Property. Furthermore, Seller will not assert, or permit any person claiming an interest through Seller to assert any claims of ownership to or any other interest in Buyer's Property. When permitted by law, Seller waives any lien or other rights that Seller might otherwise have on or in any of Buyer's Property for work performed on such property or otherwise. Goods manufactured based on Buyer's drawings and/or specifications may not be used for Seller's own use or sold to third parties without Buyer's express written authorization.

17.2 Seller's Duties with Respect to Buyer's Property. While Buyer's Property is in Seller's possession and until Seller delivers Buyer's Property back to Buyer, Seller bears the risk of loss and damage to Buyer's Property. Seller will be responsible for the cost of repairing or replacing Buyer's Property if it is damaged or destroyed regardless of cause or fault. Seller will at all times: (a) regularly inspect, maintain in good condition, and repair Buyer's Property at Seller's own expense, (b) use Buyer's Property only for the performance of this Contract, (c) deem Buyer's Property to be personal property, (d) conspicuously mark Buyer's Property as the property of Buyer and maintain such markings, (e) not commingle Buyer's Property with the property of Seller or with that of a third person, (f) not move Buyer's Property from Seller's premises without Buyer's written approval, and (g) use Buyer's Property in compliance with Buyer's or the manufacturer's instructions and in compliance with all federal, state and local laws, ordinances and regulations. Buyer will have the right to enter Seller's premises at all reasonable times to inspect Buyer's Property and Seller's records with respect thereto.

17.3 Return of Buyer's Property. Seller agrees that Buyer has the right, at any time and from time to time, with or without reason and without payment of any kind, to retake possession of or request the return of Buyer's Property. Without further notice or court hearings, which rights, if any, are hereby waived, Buyer or its designee(s) will have the right to enter Seller's premises and take possession of any and all of Buyer's Property. Upon Buyer's request and in accordance with Buyer's instructions, Buyer's Property will be immediately released to Buyer or delivered to Buyer by Seller, either (i) Ex Works (Incoterms 1990) at Seller's plant properly packed and marked in accordance with the requirements of the carrier selected by Buyer to transport such Buyer's Property or (ii) to any location Buyer designates, in which event Buyer will pay Seller the reasonable costs of delivering Buyer's Property to the location Buyer designates. If Seller does not release and deliver any Buyer's Property in accordance with this Article, Buyer may obtain an immediate writ of possession without notice and without the posting of any bond and/or enter Seller's premises, with or without legal process, and take immediate possession of Buyer's Property.

17.4 Disclaimer of Warranties. Seller acknowledges and agrees that (i) Buyer is not the manufacturer of Buyer's Property nor the manufacturer's agent nor a dealer therein, (ii) Buyer is bailing Buyer's Property to Seller for Seller's benefit, (iii) Seller is satisfied that Buyer's Property is suitable and fit for its purposes, and (iv) BUYER HAS NOT MADE AND DOES NOT MAKE ANY WARRANTY OR REPRESENTATION WHATSOEVER, EITHER EXPRESS OR IMPLIED, AS TO THE FITNESS, CONDITION, MERCHANTABILITY, DESIGN OR OPERATION OF BUYER'S PROPERTY OR ITS FITNESS FOR ANY PARTICULAR PURPOSE. Buyer will not be liable to Seller for any loss, damage, injury or expense of any kind or nature caused, directly or indirectly, by Buyer's Property, including, without limitation, the use or maintenance thereof, or the repair, service or adjustment thereof, or by any interruption of service or for any loss of business whatsoever or howsoever caused, including, without limitation, any loss of anticipatory damages, profits or any other indirect, special or consequential damages.

17.5 Development, Engineering And Consulting Services. Engineering, consulting or development services ("Development Services") funded under this Contract that result in any idea, invention, concept, discovery, work of authorship, patent, copyright, trademark, trade secret, know-how or other intellectual property ("IP") shall be the sole property of Buyer. Seller agrees to assign all right, title and interest in and to IP that results from Development Services ("Developed IP") to Buyer. Seller shall notify Buyer of the existence of Developed IP and assist Buyer in every reasonable way to perfect its right, title and interest in Developed IP, such as by executing and delivering all additional documents reasonably requested by Buyer in order to perfect, register, and/or enforce the same, and Buyer shall reimburse Seller for reasonable costs incurred by Seller in providing such assistance.

18. SERVICE AND REPLACEMENT PARTS

During the term of this Contract, Seller will sell to Buyer goods necessary to fulfill Buyer's service and replacement parts requirements to Buyer's customers at the then current production price(s) under this Contract. If the goods are systems or modules, Seller will sell the components or parts that comprise the system or module at price(s) that will not, in the aggregate, exceed the price of the system or module less assembly costs. If this Contract is in effect at the end of the vehicle production program into which the goods covered by the Contract are incorporated, Seller will also sell goods to Buyer to fulfill Buyer's and its customers' service and replacement parts requirements during the fifteen (15) year period following the end of such vehicle production program (the "Post-Production Period"), and this Contract will automatically remain in effect during the entire Post-Production Period. During the first three (3) years of the Post-Production Period, the price(s) for such goods will be the production price(s) which were in effect at the commencement of the Post-Production Period. For the remainder of the Post-Production Period, the price(s) for such service goods will be as reasonably agreed to by the parties. If requested by Buyer, Seller will

also make service literature and other materials available at no additional charge to support Buyer's service activities.

19. REMEDIES

The rights and remedies reserved to Buyer in this Contract are cumulative with, and in addition to, all other or further remedies provided in law or equity.

20. CUSTOMS AND EXPORT CONTROLS

Credits or benefits resulting or arising from this Contract, including trade credits, export credits or the refund of duties, taxes or fees, belong to Buyer. Seller will provide all information necessary (including written documentation and electronic transaction records) to permit Buyer to receive these benefits or credits, and to fulfill any customs related obligations, origin marking or labeling requirements and local content origin requirements. Seller will obtain all export licenses or authorizations necessary for the export of the goods unless otherwise indicated in this Contract, in which event Seller will provide all information as may be necessary to enable Buyer to obtain such licensees or authorization(s). Seller will make all arrangements that are necessary for the goods to be covered by any duty deferral or free trade zone program(s) of the country of import.

21. SETOFF AND RECOVERY

With respect to any monetary obligations of Seller or Seller's affiliates to Buyer or Buyer's affiliates, Buyer may (i) setoff such obligations against any sums owing to Seller or Seller's affiliates and/or (ii) recoup such obligations from any amounts paid to Seller or Seller's affiliates by Buyer or Buyer's affiliates.

22. NO ADVERTISING

Seller will not, in any manner, advertise or publish that Seller has contracted to furnish Buyer the goods or services covered by this Contract or use any trademarks or trade names of Buyer in Seller's advertising or promotional materials unless Buyer consents in writing.

23. NO IMPLIED WAIVER

The failure of either party at any time to require performance by the other party of any provision of this Contract will not affect the right to require such performance at any later time, nor will the waiver by either party of a breach of any provision of this Contract constitute a waiver of any succeeding breach of the same or any other provision. No course of dealing or course of performance may be used to evidence a waiver or limitation of Seller's obligations under this Contract.

24. ASSIGNMENT

Buyer may assign its rights and obligations under this Contract without Seller's prior written consent. Seller may not assign or delegate its rights or obligations under this Contract without Buyer's prior written consent.

25. RELATIONSHIP OF PARTIES

Seller and Buyer are independent contracting parties. Nothing in this Contract makes either party the agent or legal representative of the other for any purpose whatsoever, nor grants either party any authority to assume or create any obligation on behalf of or in the name of the other party.

26. GOVERNING LAW AND JURISDICTION

This Contract is to be construed according to the laws of the country (and state or province, if applicable) from which this Contract is issued as shown by the address of Buyer, excluding the provisions of the United Nations Convention on Contracts for the International Sale of Goods and any choice of law provisions that require application of any other law. Any action or proceedings by Buyer against Seller may be brought by Buyer in any court(s) having jurisdiction over Seller or, at Buyer's option, in the court(s) having jurisdiction over Buyer's location, in which event Seller consents to jurisdiction and service of process in accordance with applicable procedures. Any actions or proceedings by Seller against Buyer may be brought by Seller only in the court(s) having jurisdiction over the location of Buyer from which this Contract is issued.

27. SEVERABILITY

If any provision of this Contract is invalid or unenforceable under any statute, regulation, ordinance, executive order or other rule of law, such provision will be deemed reformed or deleted, as the case may be, but only to the extent necessary to comply with such statute, regulation, ordinance, order or rule, and the remaining provisions of this Contract will remain in full force and effect.

28. RIGHT TO AUDIT AND INSPECT

Buyer, at its expense, has the right to audit and review all relevant books, records, payroll data, receipts and other documents, including Seller's administrative and accounting policies, guidelines, practices and procedures, in order to substantiate any charges and other matters under this Contract. Seller will maintain and preserve all such documents for a period of four (4) years following final payment under this Contract. In addition, Buyer has the right to inspect all inventories, work-in-process, materials, machinery, equipment, tooling, fixtures, gauges, and other items related to Seller's performance of this Contract. Seller will provide Buyer with reasonable access to its facilities and otherwise cooperate and facilitate any such audits or inspections by Buyer.

29. ENTIRE AGREEMENT

This Contract, together with the attachments, exhibits, supplements or other terms of Buyer specifically referenced in this Contract, constitutes the entire agreement between Seller and Buyer with respect to the matters contained in this Contract and supersedes all prior oral or written representations and agreements. This Contract may only be modified by a written contract amendment issued by Buyer. Notwithstanding anything to the contrary contained herein, Buyer explicitly reserves, and this Contract will not constitute a waiver or release of, any rights and claims against Seller arising out of, or relating to, any fraud or duress in connection with the formation of this Contract or any breach or anticipatory breach of any previously existing contract between Buyer and Seller (whether or not such previously existing contract related to the same or similar goods or subject matter as this Contract). All payments by Buyer to Seller under this Contract are without prejudice to Buyer's claims, rights, or remedies.
